

Finca La Ceiba

Adriano is the representative of a group of 3 coffee growers: Adriano Delgado, Jose Vargas and Ignacio Delgado. They are small producers of shade grown coffee. All the families live in the farms. In the farms they also have sugar cane, citric fruits and other products.

They practice ecological wet milling, shade grown crops, protecting the environment and using organic fertilizers.

Fertilization: They don't use chemical products, natural fertilizers are used. Disease and Pest Control: Cultural control of broca (Re-Re). Harvesting: Main Crop - October to January.
